ADOIT
Enterprise Architecture Suite
by boc-group.com

1. **As an architect**, I want to be able to easily create forms for ADOIT and assign them to the responsible persons so that the ADOIT repository is kept complete and up-to-date.

2. **As the person responsible for applications**, I want the simplest possible way to maintain data for my applications on a periodic or ad-hoc basis so that I can concentrate on my core tasks.

ADOIT Forms | Your Added Value

ADOIT
Enterprise Architecture Suite
by boc-group.com

- Design forms simply. Without any programming.
- Capture ADOIT data intuitively. Without training or workshops.
- Periodically ensure that ADOIT data is up to date.
- ★★☆ Obtain assessments ad-hoc.
- Record new ADOIT objects in a guided manner. *In Development*
